# Wolverine Campground Improvements/Expansion

Barry M. June

We are replacing two-bathroom buildings in the existing Campground, one built in 1978 and one built in 1990. These improvements will provide more privacy and convenience for our Campers.

In addition to this we are building 50 new full hookup (Water, electric, and sewer connections) sites. These sites will include a new bathroom shower building. These sites will offer amenities that campers have been asking for and will be very large campsites (60'x100').

The following are corrections to statements on your website about the project and campground:

1. There will be no generators at the new sites since they are not allowed in the campground.
2. There will be fire pits at the new campsites, but we do not get any complaints from neighbors about the current 191 campsites.
3. There will be little loss of natural surroundings since we are only developing approximately 10 acres of the 180 acres of undeveloped property
4. The new campsites will be 600' from the nearest property line.
5. There is no documented case of lower property values associated with living near the Campground. A new house was built less than 40 feet east of the campground in 2021.
6. There will be no impact on local wells. The new campsites and bath house will require one well.
7. Current estimated traffic counts for Wolverine is 102 vehicles per day. The new campsites are estimated to generate an additional 25 vehicles per day.
8. Richfield Township did not respond to any calls to Wolverine Campground in 2022. There were 30 - 911 calls since January 2022 that were all responded to, and resolved, by the Genesee County Park Rangers. In addition, the Genesee County Park Rangers assisted the Richfield Township Police on 64 call during 2021.

9. We experience very little crime from campers. Most Police calls involve non-criminal campground rule violations or medical issues. There were no criminal arrests made at the Campground during the 2022 Camping Season.
10. We do not anticipate an appreciable increase in boating activities with the addition of the new campsites.

In the future let us know if you have questions about Park plans or facilities.

Best Regards,

Barry M. June
